

Shipment Requests System

1. Login Page

Input Employee ID as your Username and Password then click on Login button. If you don't have an account you can access the system by Clicking the Guest button

- To add an account, ask the administrator to create your account.

The screenshot shows the login interface of the Shipment Request System. On the left, there is a large ship's wheel icon and a descriptive text block. The main area on the right contains the system title, input fields for Employee ID and Password, a LOGIN button, and a GUEST button. Red arrows point to the LOGIN and GUEST buttons with explanatory text.

SHIPMENT REQUEST SYSTEM

Employee ID

Password

LOGIN

No Account? Login as

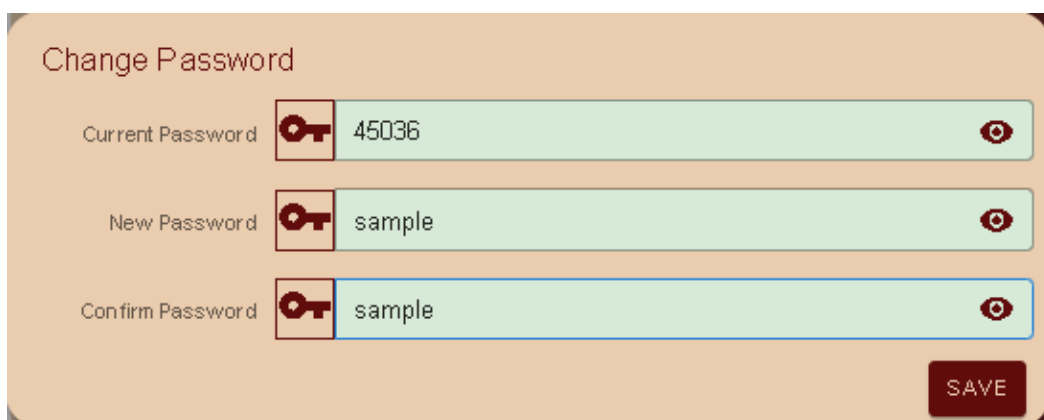

GUEST

This System are responsible for getting schedule from HRD Shipment request and compare with current HTI Shipment Request schedule. It controls the Ship-in, Ship-out, new, cancel and stopped plans/shipment

Login as User
Use your Employee ID as your username and password

Login as Guest
No need to fill up the credentials

For first time login, the user is required to change its password and relogin its account using the new password

The screenshot shows the 'Change Password' form. It includes three input fields for Current Password, New Password, and Confirm Password, each with a key icon and a toggle eye icon. A SAVE button is located at the bottom right.

Change Password

Current Password 45036

New Password sample

Confirm Password sample

SAVE

The image shows the login page for the 'SHIPMENT REQUEST SYSTEM'. On the left, there is a large icon of a ship's steering wheel. Below it, a text box explains the system's purpose: 'This System are responsible for getting schedule from HRD Shipment request and compare with current HTI Shipment Request schedule. It controls the Ship-in, Ship-out, new, cancel and stopped plans/shipment'. On the right, the title 'SHIPMENT REQUEST SYSTEM' is displayed above a login form. The form includes a username field with the value '45036', a password field with the value 'sample', and a 'LOGIN' button. Below the login fields, there is a link 'No Account? Login as' followed by a 'GUEST' button.

2. Home Page

After logging in, the Home Page will appear. The Home Page, and Navigation bar differs based on the User level of the logged in account(Guest, User, or Admin)

- **Admin Navigation Bar**

- **User Navigation Bar**

- **Guest Navigation Bar**

Logout

If you want to Logout, just click on Logout Button, that is on the Right side of the navigation Bar beside the User's Name. This will redirect you to the Login Page

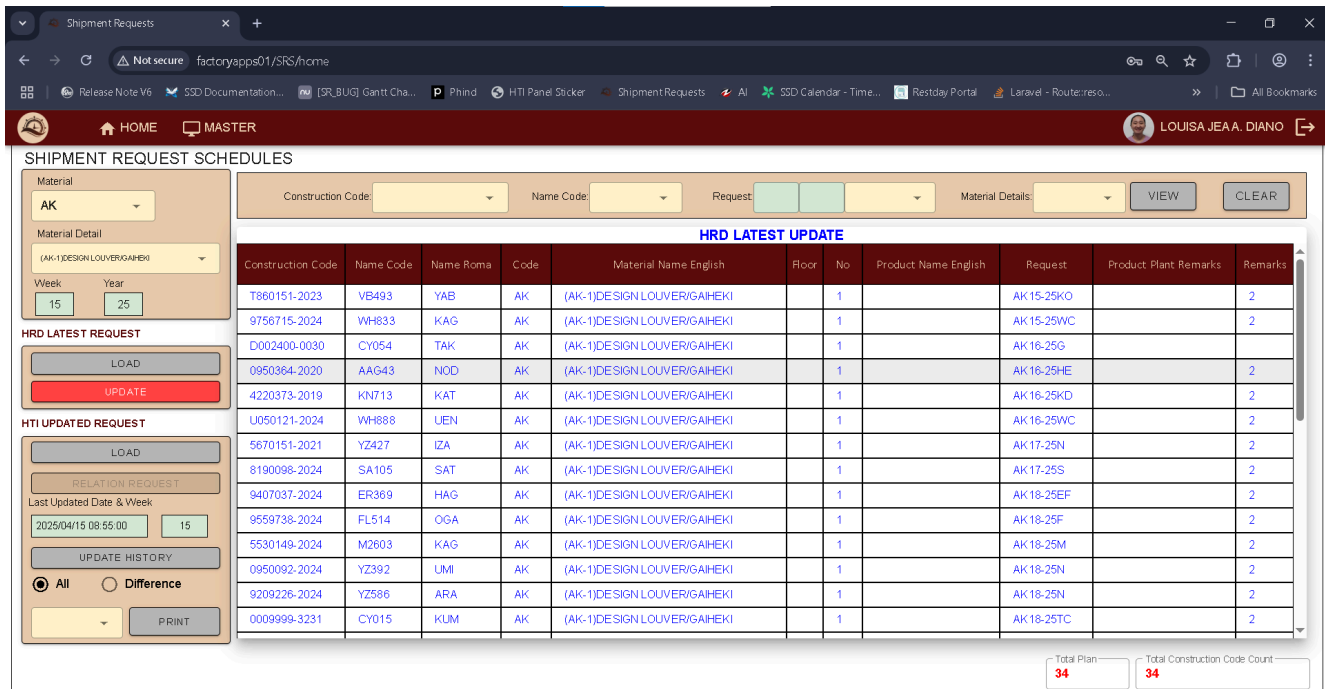

Master

If you want to go to the Master Maintenance Page, just click on Master Button, that is on the Left side of the navigation Bar beside the Home Button. This will redirect you to the Master Maintenance Page

- **NOTE:** Only Administrator have access to the Master Mainternance Button and Master Mainternace Page.

Load HRD Data

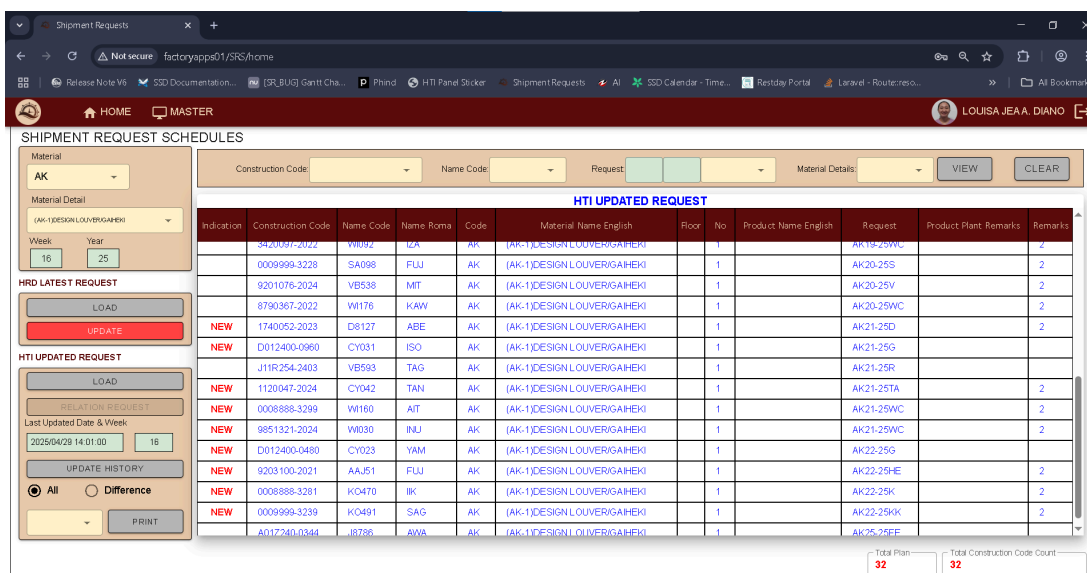

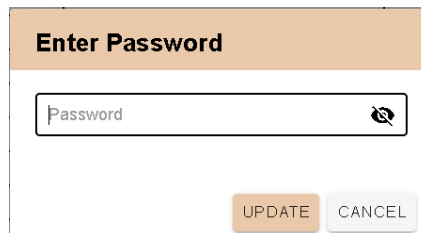

After the Required Field are filled Click Load Button to Load HRD Data

Update

To Update HTI Data you must load HRD Data First before Clicking the Update Button. After clicking the Update button a Dialog box will pop up, type your password for user verification. After the input of password, click the Update button. After that the system will load the HTI data that has been updated, and will generate/export an excel file that contains those data.

Export Excel

To download the table data click the Excel Button. The generated Excel will be saved on your Desktop

- NOTE: Not all materials have the Export Excel Function

[illegible]

Print Delivery Request Sheet

To print Delivery Request Sheet Load the HTI Data First then click the PRINT Button. You can choose whether to Print All or the Difference Data only.

The Difference data are the Data or Plans that have the Indication NEW, SHIFT(IN), SHIFT(OUT), or CANCEL. Once the Difference is chosen, and there is no difference data in the table, the Printing of Delivery Request sheet won't go through, instead it will show a prompt stating "No Difference Data".

The generated PDF will be open in a new Tab

- NOTE: The user can Select a Specific Week they want to print or leave it blank to print all data

• All - Week 17
