

Request: I0424-0357

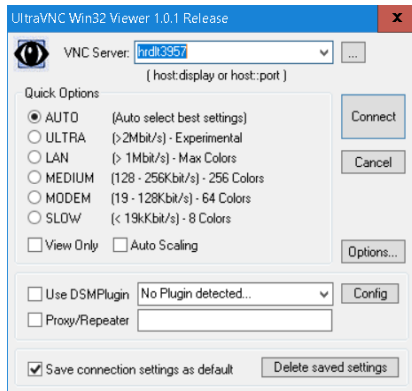

KindName: Data Modification

Details: Request access right to Barchart Maker System (version2)

Solution: make initial checking->add odbc database connection due to no connection -> but still error -> request for temp access -> upon checking there is a missing dll(hxvz.dll)-> add the dll by following this tutorial

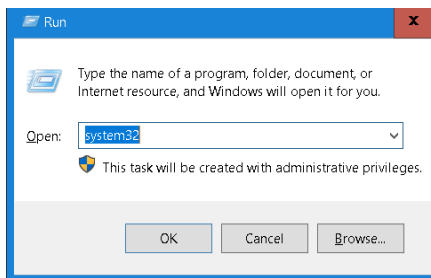

1. VNC the CPU that have an error

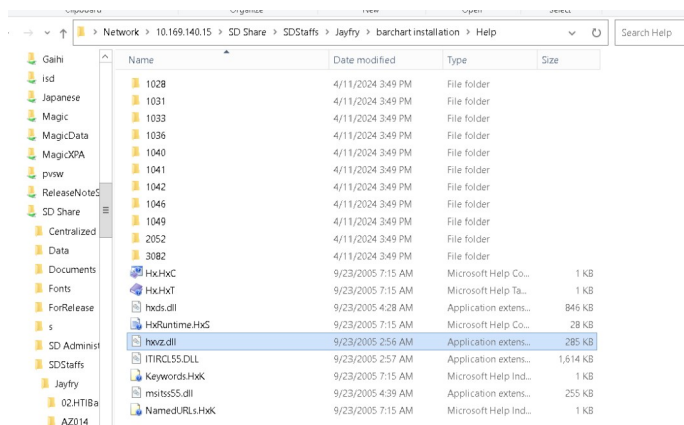

2. Window+R, type system32 If the Operating System is 32bit

Window+R, type syswow64 If the Operating System is 64bit

3. Window+R, \\10.169.140.15\SD Share\SDStaffs\Jayfry\barchart installation\Help\hxvz.dll

4. Copy the hxvz.dll then paste it to system32 if the OS is 32bit else to syswow64
